

SMART HOME SOLUTIONS

Home automation built for the future. J. Patrick Homes can fully integrate new smart home features that will make your personalized home even more functional and comfortable. Whether you're at the office, on vacation or simply running errands, stay connected with our smart home technologies offering maximum flexibility and access, no matter where you are.

smarter living

Now your home can be tailored to your personal preferences, every day with modern smart home automation systems and easy-to-use interfaces. Your new J. Patrick home is available with the following smart home features plus white-glove service after closing for professional orientation of the Duncan Security mobile app, Qolsys IQ Panel 2+, integration of Liftmaster Garage Door, Z-Wave Light Switch, Kwikset Z-Wave Front Door Lock and Alarm.com Video Doorbell.

SMART SECURITY

Qolsys IQ Panel 2+

Smart home and security hub with Bluetooth technology. Panel location varies per floor plan. Benefit from 24/7 monitored home security.*1

SMART LOCK

Kwikset Z-Wave Front Door Lock

Remotely lock/unlock and control access to your front door. Say goodbye to spare keys and enjoy extra convenience.

SMART GARAGE CONTROL SYSTEM

Liftmaster Garage Door Opener

Remotely open or close your compatible garage door and be notified if the garage door is left open.

SMART DOORBELL

Alarm.com Video Doorbell

HD video doorbell allows you to talk through your internet-connected smartphone to answer the door day or night.

SMART LIGHTS

Z-Wave Light Switch

Set lighting schedules that are energy efficient while enhancing security.

SMART THERMOSTAT

ecobee Smart Thermostat Pro

Smart thermostat includes voice control and Alexa built-in capability. Smart Sensor to adjust your thermostat based on occupancy and temperature.*2
